FREE - Business Health Check Up

Business Strategy , Sales , Marketing , Customer Retention , Financial Health

Are you looking to improve your business performance and growth ?

Whether your business is struggling in today's economy or you think things are running fine but just want to be sure, it's very important for you to have an independent evaluation of your business.

Our **FREE** Business Health Check Up (\$3,000 value) is **NOT** your typical business health check that you see on the internet, books, seminars, articles or from other business coaches.

We have developed this copyrighted and proven Business Health Check Up specifically for business owners, CEOs and executive team members to help them quickly assess their business and develop actionable recommendations for business performance improvement.

The Business Health Check Up will give you an evaluation of your key business performance factors including your (business strategy, sales, marketing, customer retention and financial health), compare your performance to others in your industry and show you where to focus your attention and resources in the future to improve your business performance.

What You Will Get

1. A questionnaire containing over 25 critical business performance questions. (20 minutes to complete).
2. Evaluation of your questionnaire responses by a business improvement expert.
3. Results Executive Briefing - (60 minute) free consultation with your business improvement expert.
4. Written report covering how your business compares to others in your industry.
5. Written report identifying performance improvement opportunities within your business strategy, sales, marketing, customer retention and financial health.
6. Written report recommending solutions to improve your business performance.
